

Cargill Protein - North America

Cargill's 160,000 employees across 70 countries work relentlessly to achieve our purpose of nourishing the world in a safe, responsible and sustainable way. Every day, we connect farmers with markets, customers with ingredients, and people and animals with the food they need to thrive. We combine 154 years of experience with new technologies and insights to serve as a trusted partner for food, agriculture, financial and industrial customers in more than 125 countries. Side-by-side, we are building a stronger, sustainable future for agriculture.

Cargill's North America protein business produces fresh, frozen and cooked beef, turkey, pork, chicken and egg protein offerings, sauces, soups, case ready products, pet treats and by-products for our retail, foodservice and food ingredient customers. As a customer-centric organization, it focuses its wealth of business expertise and capabilities, innovation, research and development, consumer insights and product support to deliver protein solutions that offer distinct value to help its customers grow.

Protein – North America has a diverse 28,000-member team and operates approximately 60 protein facilities, distribution centers, feed mills, hatcheries, and an innovation center in the U.S. and Canada, in addition to maintaining international sales offices.
